

# DOCTOR<sub>x</sub>

# Comfort

## A Latex-free and Powder-free Choice System-wide

*New synthetic glove material with Sure Shield Stretch™ modulus technology*

**Latex Free** - The Dr<sub>x</sub> Comfort synthetic glove is latex/NRL free. It eliminates the risk of Type 1 allergic reaction to latex.

**Modulus** - The new proprietary formula Dr<sub>x</sub> Comfort glove is made using Sure Shield Stretch™ Modulus Technology yielding a glove with excellent form, fit and function.

**Vitamin E** - Soothing coating on the inside surface of the glove.

**Powder-free** - Minimizes drying effects of powder on the skin and prevents contamination of Laboratory, Dental or Hospital Tests.

**Barrier Protection** - Unrivaled against blood-borne pathogens and other body fluids.

**Tactile Sensitivity** - Excellent fit and feel, strong and elastic while protecting against Hand Fatigue.

### Product Information

DOCTOR<sub>x</sub> *Comfort*  
Synthetic Gloves

#### Packaging:

100 per box  
10 boxes per case  
1,000 per case

#### Product Numbers:

Extra-small	48500
Small	48501
Medium	48502
Large	48503
Extra-Large	48504

#### Specifications:

Non-sterile powder-free synthetic exam gloves  
Certification: ISO 9002/EN 46002

#### Characteristics:

Color:	White
Glove Length:	240MM min.
Typical Thickness:	.08mm at finger .08mm at palm .06mm at cuff
Primary Material:	Poly vinyl chloride paste
Accelerators:	None
Cuff:	Beaded

#### Pinholes:

Acceptable Quality Level	2.5 (AQL)
FDA regulations	Meets/exceeds 21 CFR 800-20 Class 1 medical Device
ASTM Standards	Meets/exceeds D 5250-99, D 6319-99

#### Tensile Strength:

Minimum (before aging):	9Mpa
ASTM Standards	Meets/exceeds D 5250-99, D 6319-99
Ultimate elongation	
minimum (before aging)	300%
minimum (after aging)	300%
ASTM Standards	meets/exceeds D 5250-99, D 6319-99
